PENINSULAR AND ORIENTAL COMPANY.

QUARANTINE AT EGYPTIAN AND CONTINENTAL PORTS.

ARRANGEMENTS have been made for PASSING the Company's steamers THROUGH THE SUEZ CANAL in QUARANTINE, thus avoiding any detention in Egypt.

The HOMEWARD MAILS are now being landed at VENICE, but the Quarantine, which is still imposed at this and all other Continental Ports, PREVENTS the landing of PASSENGERS, and the QUICKEST route by which they can reach England is to proceed to PLYMOUTH DIRECT.

The passages of the steamers will continue to be accelerated as much as possible. The last four steamers have made the voyage from Bombay to Plymouth in 26 days. Until the Continental route is again open, passengers taking three-monthly Return Tickets will be allowed an extension of a fortnight, if required.

F. D. PARKER,
Superintendent.

Bombay, 9th August, 1883.

MACLEAN'S GUIDE to BOMBAY and BOMBAY

COMMERCIAL INTELLIGENCE

MONDAY EVENING, SEPT. 24.

ACCORDING to the London financial telegrams of Saturday, there is no change whatever in the value of any of the leading Stock Exchange securities. Money is also unaltered.

In the General Produce markets, Linseed is firm, and prices are a shade better. Rapeseed unchanged. Wheat firmer.

MONEY.—The Bank of Bombay's return for the week ending on Saturday, the 22nd instant, shows the following alterations :—

	Amounts.	Increase.	Decrease.
	Rs.	Rs.	Rs.
Public Deposits at H. O.	54,43,223	3,19,611	..
Do. do. Branches	18,74,406	..	6,015
Other Deposits	1,86,66,749	16,47,995	..
Cash Credits undrawn.....	3,73,651	..	19,622
Govt. & other Authorised Securities	60,20,055	..	1
Cash Credits on Security of Govt. Paper, Bullion, and Merchandise	13,32,280	..	17,236
Loans	60,47,080	..	98,910
Bills Discounted.....	1,27,89,170	53,072	..
Cash Balances with Correspondents	3,35,638	..	7,35,574
Cash & Currency Notes.	1,10,06,096	27,43,998	..

As will be seen from the above return, there has been an increase of nearly 16½ lakhs in the private deposits, and about 3½ lakhs in the Government account. These, together with a reduction of about 7½ lakhs in the balances held by correspondents, has swelled the cash balance to 110 lakhs—an increase of about 27½ lakhs when compared with that of the preceding week. The loans and bills discounted taken together show an increase of about half-a-lakh. Money still continues in good demand, and in the bazaar there is a firm feeling.

EXCHANGE closes 1-32d. higher all round to-day, there having again been a fair supply of Mercantile Paper offering for the season, both ready and forward. Sales have been made up to April on the basis of 1s. 7 31-32d. for three months' credits. Bank bills have not been much inquired for. Silver is reported by private wire at 50 13-16d. per oz. buyers ; 50¾d. sellers. Money is in good demand here, and the increase in the Bank of Bombay's cash balance is considered temporary. Exchange in Calcutta is very strong at firmer rates, and money there is worth 6½ per cent. at call. We quote :—

Bank Bills on Demand	1s. 7 21-32d.
Do. Telegraphic Transfer	1s. 7 19-32d.
Do. 3 months' sight	1s. 7 13-16d.
Credits, 3 months' sight	1s. 7 29-32d.
Francs, 3 months' sight	Frs. 2·09½.

GOVERNMENT PAPER continues weak. Sales of 4 per cents. were made at Rs. 98 11-16 to Rs. 99½ ; 4½ per cents. at Rs. 103¼ to Rs. 103⅝.

SHARES.—There is a spurt in Port Canning shares, and they have risen to Rs. 430. Press securities are also in favour, and rates for Berars, Mofussils, and New Indians have advanced to Rs. 657½, Rs. 465, and Rs. 240 respectively. There is a further improvement of about Rs. 10 per share in Mill shares. Business is reported in Albert Edwards at Rs. 590 ; Dhurrumseys at Rs. 545 ; Empress at Rs. 880 ; Hindostans at Rs. 1,135 ; Jewraz Balloos at Rs. 1,210 ; Khataos at Rs. 1,105 ; Mahalukshmis at Rs. 1,060 ; Manockjee Petits at Rs. 1,420 ; Morarjees at Rs. 1,575 ; New Great Easterns at Rs. 1,100 ; Orientals at Rs. 740 ; and People of Indias at Rs. 285.

COTTON remains steady with a limited number of buyers in the market. The reported transactions are of an insignificant character and confined to spot parcels. There is little or no inquiry for the new crop, and prices may be quoted a trifle lower.

In LINSEED there is a fair business doing, and the market closes steady at Rs. 5-13½ to Rs. 5-14 per cwt.

RAPESEED is firm and prices have advanced about 4 annas per cwt. We quote Guzerat Rs. 8-8 to Rs. 8-10, Cawnpore Rs. 8-0 to Rs. 8-4 and Brown Rs. 7-2 to Rs. 7-3 per cwt.

WHEAT.—The inquiry for export account is extremely limited, and there is no change in prices. We quote :—White Pemir No. 1 Rs. 32½ to Rs. 33 per candy ; Yellow Rs. 27½ to Rs. 28 ; Luskari Rs. 26 to Rs. 26½ ; Catha Rs. 24 to Rs. 24½.

FREIGHTS are firm. About 2,000 tons of Wheat cargo was booked by the Hispania to Liverpool at 20s. on Saturday, but 22s. 6d. is now the rate asked. Cotton 25s. For Trieste and Venice the rate is 25s. Marseilles 17s. 6d. to 20s.

PIECE-GOODS are in rather better request, and prices in some instances have improved a little.

METALS are in good demand, and about 200 cases of Copper Braziers have been sold "to arrive" at Rs. 45-12 per cwt. A sale of about 50 cases Yellow Metal of any brand is also reported "to arrive" at Rs. 35.

Second.—The Up Passenger Train which now leaves Sholapur at 7-0 a.m., will leave at 8-0 a.m. instead and arrive at Poona at 6-0 p.m. It will leave Poona at 11-0 p.m. and arrive in Bombay at 7-0 on the following morning.

Third.—An additional Passenger Train will run between Bombay and Poona. It will leave Bombay at 8-30 p.m., and arrive at Poona at 5-45 a.m. ; leave Poona at 8-30 p.m. and arrive in Bombay at 6-0 a.m. on the following day.

Fourth.—The Down Mixed Train now leaving Lanauli at 7-0 a.m. and arriving at Poona at 9-30 a.m., and the Up Mixed Train leaving Poona at 7-0 p.m. and arriving at Lanauli at 9-30 p.m., will be discontinued.

Fifth.—The Up Passenger Train from Poona at 9-0 a.m. will leave there at the same time, but arrive in Bombay at 4-45 p.m. instead of at 1-30 p.m., as at present, and will stop at all Stations between Poona and Bombay.

Sixth.—The Down Mixed Train now leaving Sholapur at 5-50 p.m., will leave at 7-0 p.m. instead, and arrive at Raichur on the following morning at 6-30 instead of at 5-30 as at present.

Seventh.—The Up Mixed Train from Raichur will start at 7-30 p.m. instead of at 6-0 p.m., and reach Sholapur at 6-50 a.m. the following day.

Eighth.—The Up Mixed Train which now leaves Kasara at 6-30 a.m. will leave at 7-30 a.m. and arrive at Kalyan at 10-45 a.m. instead of at 9-15 a.m.

Ninth.—The Local Train Service between Bombay and Kalyan will be revised, and an additional Train will be run between Bombay and Cooria and Bombay and Kalyan.

Tenth.—The Down Mixed Train which now leaves Dhond at 11-25 a.m. will leave at 11-0 a.m., and arrive at Munmar at 9-30 p.m. instead of at 10-0 p.m. as at present.

Eleventh.—The Up Mixed Train which now leaves Munmar at 2-45 a.m., will leave at 3-0 a.m., arriving at Dhond at 1-30 p.m., instead of at 12-45 p.m. as at present.

Twelfth.—On and from Monday, the First of October next, two Trains instead of one will run over the Khamgaon State Railway, leaving Khamgaon at 8-45 a.m. and 3-45 p.m. and arriving at Jalamb at 9-30 a.m. and 4-30 p.m. ; leaving Jalamb at 10-15 a.m. and 5-0 p.m. and arriving at Khamgaon at 11-0 a.m. and 5-45 p.m. respectively.

All other Trains over the Great Indian Peninsula Railway, and the Dhond and Munmar, the Bhopal and the Amraoti State Railways will continue to run as at present.

On the First October next a new Station will be opened at Matoonga, between Dadar and Sion, for Passengers, Luggage and Parcels. All the Local Trains running between Bombay and Kalyan will stop at this Station.

For information as to the Trains by which Horses and Carriages will be conveyed, and for further particulars, see the pub ished Time Bill, dated the First of October, 1883, Exhibited at Stations, and Special Notice in this Company's Guide Book.

But the less the ... Northcote from his ... serious embarrassment to the Cons... party. He possesses many of the qualifications of a good leader, but unhappily lacks some which are even more indispensable quickness of mind, firmness, and, above all, that individuality of character, that personal impressiveness which influences and controls the feelings and imagination of men, and so helps to bind together discordant elements. He commands, however, universal respect in the House, and his reputation for good sense, experience, and moderation is a considerable element in the strength of the Conservative party in the country, and a source of comfort to the "moderate" Conservatives, a class of persons who are almost as amorphous and indeterminate as the "moderate" Liberals who fill so large a space in the imagination of provincial Conservative editors, but who doubtless do influence to some extent the course of party movements and developments. The retirement of Sir Stafford Northcote will be a serious discouragement to this fraction of the party whose moderation, as has been unkindly observed, is nowhere so conspicuous as in the very moderate ability which they command. The talent in the Conservative party, which has never at any period of its history been inconsiderable, takes naturally to the brilliant, audacious, and thorough-going policy of a leader like Lord Salisbury, which has at any rate the distinction of being a positive doctrine, and not a mere compromise between opposing principles. Impartial spectators will be interested in watching the struggle between these two tendencies, a struggle which is quite as real, and probably more intense though more latent, than that between the Whig and Radical sections of the Liberal party on which so many busy and sanguine calculations are built.

The two chiefs on whom the mantle of Sir S. Northcote might be expected to fall are the two *bourgeois* Conservatives for whom Mr. Disraeli, with his usual sagacity, found a place in his Cabinet side by side with that august dummy, the Duke of Northumberland, Mr. W. Smith, and Sir R. Cross. But it is as certain as anything can be that the leadership of either of these gentlemen is impossible, and it is further no secret that the appointment of either of them to the post of Conservative leader would lead to something like an open mutiny in the Conservative ranks. Sir S. Northcote is a gentleman of ancient lineage, whose family has for centuries been connected with the Parliamentary representation of one of the most important English counties, and who has considerable territorial possessions. A leader with these qualifications, if he has tact and persuasiveness, can retain the allegiance of the country gentlemen, as Sir Robert Walpole, that typical country gentleman, did, even when he is leading them in directions which are very little consistent with their prejudices. But a statesman of *bourgeois* origin and uncongenial habits like Sir Robert Peel never won their entire confidence, and in the end they mutinied against him. It is absurd to suppose that second-rate men like Mr. Smith and Sir R. Cross, who have not the tenth part of Sir Robert Peel's experience and knowledge, will succeed in a task in which he failed, even if they had acquired their present position by their own exertions and talents, and not rather by selection and patronage. It seems decided, therefore, for the present, that in case Sir Stafford Northcote retires next session from the leadership of the Opposition in the House of Commons, Lord John Manners will take his place. He is a leader whose rank and connections will recommend him to the country gentlemen, and who cannot be displeasing to the *bourgeois* or urban Conservatives, notwithstanding the aristocratic pretensions which he expressed in the two lines of verse which have secured a certain immortality, as he is one of the most high-bred and courteous of living gentlemen, and quite capable, moreover, of making an effective speech on an emergency. But he is as old as Sir Stafford Northcote, and his health is not much better, while he is unmistakeably his inferior in political experience and knowledge. It must also be borne in mind that next session will probably be one of crucial importance, and decide the preponderance of parties for the next seven or ten years. The Bill for extending household franchise to the counties, whether accompanied or not by a re-distribution of seats, is one of great importance, though it is extremely difficult to predict what its effects will be if the present distribution of seats remains unchanged. Lord John Manners may look for some help from Mr. Goschen and a few minor deserters, like the Fitzwilliam and Sutherland clans ; from the Whig ranks ; but even with these recruits, of whom none but Mr. Goschen is really worth considering, his position will not be an easy one with an overwhelming superiority in debate arrayed against him, and possibly a mutinous group among his followers eager to thrust themselves into the front rank and secure that pre-eminence which they think their due. Under these untoward circumstances, the Conservative party, which the *Times*, perhaps the bitterest enemy of the present Liberal Administration in the London Press, sorrowfully admits to be not improving its position under its present guidance, will for a time fall wholly to pieces, as the Liberal Party did for some time after Mr. Gladstone's retirement in 1874. It will then remain to be seen whether the hopes of Lord Randolph Churchill's backers are well-founded, and whether the prudent and solid, though rather slow, section of the moderate Conservatives will consent to follow this impetuous young leader. Lord R. Churchill certainly possesses audacity, talent, and industry, all of them highly necessary qualifications for one who aspires to be a leader ; but these count for very little without judgment, of which he has hardly as yet discovered many signs. The idea of a Tory-Democratic rule has always had a great fascination for imaginative persons, and most young men of the last generation imbibed something of its spirit from a perusal of Mr. Disraeli's novels. But in the world of fact it has always proved a phantasmagoria, as all imaginative combinations of inconsistent principles do prove. Lord Salisbury has not much of the "popular fibre" in his composition, of which Louis Napoleon used to boast, and he has too impetuous and fiery a nature to keep his true sentiments long concealed. But an Administration—if such a thing is conceivable—headed by Lord Salisbury in the House of Lords, and Lord Randolph Churchill in the House of Commons, would be an interesting, one might almost say an agitating, phenomenon, which would effectually prevent English politics from subsiding into unendurable dulness.

WE hear that many of the Civil Engineers of the Bombay Public Works are much dissatisfied and surprised at the appointment of Mr. E. Pinhey (of Cooper's Hill College) to represent all classes of engineers of this Presidency on the Simla Committee recently nominated to consider their grievances and to draw up a scheme for the reorganization of the Public Works Department. Mr. Pinhey, we find on reference to the Engineering Establishment List, is an Assistant Engineer of only seven years' standing ; and the fact affords ground for the feeling which prevails, that he cannot have sufficient experience of the working of the Department to constitute him a trustworthy authority on the various important questions that are to be brought before this Committee. Mr. Pinhey will doubtless be of assistance in considering matters specially affecting the Cooper's Hill men ; but there are other classes of engineers, whose special interests are equally concerned in the Committee's investigation. The Engineering Establishment of the P. W. Department is composed of three classes of civilians :—(1) Those who won their appointments in open competition, commonly known as Stanley Engineers ; (2) those engaged in England or India in the open market ; and (3) those from the Cooper's Hill College. We think that one of the senior officers of each of the other two classes might have been selected for the Simla Committee in addition to Mr. Pinhey, who is one of the senior officers from the Cooper's Hill College employed on this side of India. Such an arrangement would have given satisfaction to all classes in the Department, whereas now there is considerable disappointment. We believe a protest has already been made to Government by the P. W. Civil Engineers regarding the appointment of Mr. Pinhey alone ; and for the good of the Department generally it may be hoped that His Excellency the Governor will give the representation the weight of his support in forwarding it to the Government of India.

THE terrible series of catastrophes connected with the recent volcanic eruptions in Java happened at a specially unfortunate time for the Government of Netherlands India, when they had their hands already full with the outbreak among the native population of Acheen, and at a time when the country is suffering from the effects of the complete failure of last year's rice crop. When the last Straits mail left, it was reported that the discontent had been fanned into positive mutiny in two districts, and there was reason to fear its spreading throughout the colony. The appalling events of last month have only tended to intensify the danger, the native agitators having seized the opportunity to inflame the minds of the disaffected by declaring that the eruption and tidal waves, which have carried death and destruction over enormous tracts of country, are in some way connected with the presence of the Dutch and the subjection

THE MAILS.

THE P. and O. Company have received a telegram stating that the s.s. Cathay, which left Bombay with the homeward mails at 5 p.m. on the 18th instant, reached Aden at 2 p.m. yesterday, the 24th idem.

HIS EXCELLENCY THE COMMANDER-IN-CHIEF (General Hardinge) is expected to visit Bijapur on the 30th instant.

O Correio de Goa complains that pressure is being brought to bear by the British Delegate with a view to raise the tax on cocoanut trees used for drawing toddy in Goa territory to rupees three or four. A year has not elapsed, it is pointed out, since the tax was raised to Rs. 2 on each tree.

A RANGOON telegram states that Messrs. Stewart, Allen and Company, who lately stopped payment, have filed a schedule of insolvency.

WITH reference to the *canard* regarding the Calcutta Trades' Association, and the Viceroy, the *Englishman* says :—"We have been requested to state that there is no truth whatever in this assertion. The subject, in fact, has never been discussed by the Trades Association."

WE have received a copy of the "Report on the Meteorology of India in 1881," by Mr. H. F. Blanford, Meteorological Reporter to the Government of India.

MR. EDGAR VINCENT, who has been appointed Financial Adviser to the Khedive in Egypt, is a brother of Mr. Claude Vincent, of the Madras Public Works Department, and of Mr. F. D'A. Vincent, of the Madras Forest Department.

IT is said to have been decided that the Egyptian war medals shall be given to the officers and crew of the Indian Government vessels Amberwitch and Tenasserim, which were attached to the Squadron under Sir William Hewett.

THE Hon'ble Syed Ahmed Khan, C.S.I., has circulated a scheme for the establishment in the Punjab of a Society for sending promising Mahomedan youths to England, in order to enable them to compete at Civil Service examinations. The Society is called "The Mahomedan Civil Service Fund Association." Membership involves a monthly payment of at least two rupees. Meetings have been held in Gurdaspur and Sialkote ; and several leading Mahomedans there have become members of the Association.

A NEWSLETTER has reached the Lahore paper from Kabul, in which the following statements are made :—It has been ascertained, on good authority, that while the Ameer Abdul Rahman was still in the neighbourhood of Jelallabad, a Russian agent arrived in Herat. The Ameer, hearing of this, gave orders to the Governor of Herat that the man should be sent on to Kandahar, where he would presently meet him. Accordingly, the Russian agent was escorted to Furrah by a guard of cavalry, and from Furrah to Kandahar, where he was lodged in the Governor's house." The *Civil and Military Gazette* adds :—"We have ascertained that the above report is, in the main, substantially true. A Russian subject has recently arrived in Kandahar, and there are reasons for supposing that he is an agent of his Government."

THE *Statesman* has received the following account of the famous telegraphic despatch to Reuter (summarising the great debate on the Ilbert Bill in the Viceregal Council), and believes it is the true one :—

"Regarding the telegram sent through Reuter's agent on the Ilbert Bill debate, you know, I think, that the responsibility of sending it rested with Major Baring. Before leaving India he recorded a minute, explaining everything with regard to it. It appears that he consulted Mr. Ilbert as to the advisability of sending a telegram to show the true scope and object of the measure, and to correct the reports that were being sent home by the *Times* Calcutta correspondent. Mr. Ilbert agreed, and the Viceroy was then consulted. Lord Ripon gave an abstract of what he intended to say in Council, and the Secretary in the Legislative Department was entrusted with drafting the message. Reuter's agent was informed of the intention of Government by Major Baring, and agreed to send the telegram, which was handed to him as soon as all the Members had spoken, except the Viceroy. It is not known, I believe, that Major Baring has left a minute on the subject, in which he has explained the slight inaccuracies that crept into the telegram, no copy of which was kept. With regard to the questions why it was not sent as an official telegram, Major Baring believed that he was following the usual practice as observed with the Budget every year. The exact cost of the telegram is stated in the minute. It was under Rs. 3,000."

THE *Calcutta Gazette* contains a statement showing the special loans made to Municipalities in Bengal. These are divided into three heads : loans to Calcutta, loans to Mofussil Municipalities, and loans to District and other Local Fund Committees. Under the first head, we find that Calcutta borrowed from the Government Rs. 78,31,199, and the balance not paid at the close of the financial year 1882-83 (March last) was Rs. 72,64,423. This loan bears interest at 4½ per cent. Under the second head, there are three loans : the first to the Burdwan Municipality at 6 per cent. of Rs. 40,000. Of this loan, only Rs. 2,600 are outstanding. Second, the Arrah Municipality borrowed Rs. 6,100 at 4½ per cent., and have paid off the loan, with the exception of Rs. 1,220. Then, third, the Darjeeling Municipality was granted a loan of Rs. 40,000 at 4½ per cent. Of this sum, Rs. 36,704 are still outstanding. The most unsatisfactory loan is that to the Port Canning Municipality of Rs. 4,50,000. No interest is mentioned as accruing on this loan, but the amount outstanding at the end of the last financial year was Rs. 4,61,100.

ON the subject of the encouragement of private enterprise to undertake Railway construction in India, a home correspondent says it is an open secret that Lord Kimberley and his Council are not of one mind on this point. "Several members of the Council are favourable to a system of limited guarantees for private enterprise in India, but Lord Kimberley hesitates to accept that policy. Nevertheless the Secretary of State is anxious to encourage the development of enterprises of all kinds in India, and it is intended next session to ask Parliament to appoint a committee who shall deal with this among other subjects. The House of Commons has limited the amount of loans for public works to two and a half millions. This step, it will be remembered, was taken when Indian finance was not in the healthy condition in which we now see it. In consequence of the improved prospects of the Indian Exchequer, it is highly probable that the committee will inquire whether that sum might not be increased, and additional impetus thus given to the development of railways and other public works. It will no doubt fall within the scope of the committee to say whether any guarantee, and under what circumstances, shall be offered for private enterprise."

ACCORDING to an Australian paper one of the Irish informers, Kavanagh, who was not allowed to land in the colonies, "has expressed a wish to be conveyed to Calcutta, and it was considered probable that the Colonial authorities might comply with his wishes in this respect. The man requests that he may be sent round in some vessel unknown to the public, and he thinks he can evade the terrorists by domiciling himself in India better than he should anywhere else." The *Englishman* hopes "that the Government of India will not allow him, or any of the other Fenian deports, to come to live in this country."

THE *Penang Times* of the 31st August publishes the following translation of the Resident of Rioux's report on the worms found in fish in that port. It is rather different from the opinions of Drs. Robertson, Simon and Kerr :—"This month (June) an infectious disease exhibited itself in the river and sea fish, and especially in the latter. The whole body of the infected fish, the flesh as well as the entrails, were infested with an astonishing great number of white, rather transparent, worms of from 1 to 1½ centimetres length. When eaten these infected fish coused violent vomiting and diarrhœa as in cholera, but without death ensuing, at least in this place."

WHILE a salute was being fired from the Spanish man-of-war Aragon, on her arrival at Hongkong from Nagasaki on the 16th August, a spark from the funnel alighted among some powder cartridges lying on deck, causing the cartridges to explode. Seven men were injured by the explosion, three of whom afterwards died.

H. M. S. CHAMPION arrived off Penang on the 2nd instant, but was met by a telegram from the Admiralty ordering her to proceed direct to the Sunda Straits. After laying in fresh stock she steamed away at full speed ; and H. M. S. Gunvessel Fly, which arrived the next day from Aden, received orders to follow the Champion, which she did without delay. The Admiral Commanding on the China station is reported to have received orders for an immediate survey of the Sunda Straits and the coasts affected by the volcanic eruptions in Java generally.

SIR ANDREW CLARKE, Inspector-General of Fortifications, has, for very many years, been drawing a pension of £800 from the colony of Victoria which was granted to him in consequence of the official position he once held thereon. A question has been raised as to whether under the Victorian Constitution Act the acceptance by Sir Andrew of a lucrative office under the Imperial Government did not invalidate his claims to the pension. Mr. Service is inquiring into the matter. Sir Archibald Michie, late Agent-General for the colony, contends—in a letter to the Melbourne *Argus*—that the pension ought legally to have been stopped years ago.

THE charge against the Sydney newspapers, *Herald* and *Echo*, both of which are under the same proprietorship, was contempt of court. The Chief Justice (Sir James Martin) being asked by the counsel for the defence to state the specific offence, "pointed out that in the *Echo*, in the beginning of an article, it was stated that the trial would not be satisfactorily terminated in that court. This charged the court with partiality. It went on to say that Sir George Innes had not had an English training. This was notoriously untrue. There were also some reflections on the mode of his elevation to the bench, and this was done to disparage him, and the administration of justice through him ; and besides, there were repeated comments on the judge and jury while matters were pending before the court. Mr. Darley again asked that the charge might be formulated. The Chief Justice : 'The charges are—disparagement of the judge's charges, and repeated comments on judge and jury while the mattter was *sub-judice*.'"

WE see it stated that the Cunard Company is building two steamers of 8,000 tons burden and 13,000 horsepower, guaranteed to cross the Atlantic in less than six days, or at the rate of nineteen knots an hour.

SAYS *Truth* :—Personally, I am a great admirer of Mr. Mathew Arnold's writings ; it is therefore from no prejudice against the man that I say that a literary pension of £250 per annum ought not to have been bestowed upon him. He is a Government *employé* in the receipt of £700 per annum, and with a right to a retiring pension. These grants ought in all cases to be made to literary men, or to the families of deceased literary men who are really in want. It may be pleasant to have an addition made to income, but no one can pretend to say that any one with an assured £700 per annum is a fitting object for public charity.

NEWS has been received of the death at Lourdes of Mr. Daniel O'Sullivan, who, as Mayor of Cork in 1868, created some stir. Mr. O'Sullivan during the tenure of office, while presiding at a supper in Cork in honour of Messrs. Warren and Costelloe, who had just been released from prison, referred in remarkable language to the attempted assassination of the Duke of Edinburgh. A special Bill was introduced into Parliament to deprive him of his office of mayor, and he was summoned to the bar of the House of Commons to answer for his conduct. On the advice of the late Mr. Maguire, M.P., he voluntarily resigned the mayoralty, and since that period he had lived in retirement.

A CURIOUS case of death caused by an outburst of passion lately occurred in England. Mr. W. J. Payne held an inquest in Southwark on August 30, upon the body of Henry Stoker, aged forty-five, of 15, Willmott's-buildings, Southwark. The wife of the deceased stated that on Sunday night last her husband returned home about ten. She was out at the time, and in consequence of this their son, a lad eleven years of age, refused to go indoors at his father's bidding. Her husband was a very passionate man, and of hasty temper, and on seeing the boy run away, he exclaimed, "God strike me dead if I don't kill him when I catch him." He ran after the boy, and met witness while so doing. He was dreadfully excited, but she got him back into the house and to bed. Soon after he jumped up and said he felt as though he would choke, and then became insensible. A doctor was sent for, but death ensued a day or two after. Mr. M. Cock, surgeon, gave evidence to the effect that the deceased had had a very violent fit of passion, which caused a rupture of one of the valves of the heart, and so produced death. The jury returned a verdict in accordance with the medical evidence.

Truth's verdict on the "Tamatave incident" is very tersely expressed :—"Admiral Pierre does not seem to have been a very conciliatory person, whilst the commander of the Dryad was very fussy. I think that this will be the verdict of impartial men when the communications which passed between them see the light."

OBITUARY.

WE regret to have to announce the death of a lady who filled a prominent place in Bombay Society—the wife of the Hon. F. L. Latham, Acting Judge of the High Court. Mrs. Latham had been ill with fever for some time, we believe, but died rather suddenly on Sunday evening. The funeral took place at 4 o'clock yesterday afternoon, and was attended by most of the members of the local Bench and Bar, and others. In consequence of Mr. Justice Latham's absence, Mr. Justice Scott disposed of Chambers business at the High Court yesterday. The Court did not sit in the afternoon, in order to enable members of the Bench and Bar to be present at the funeral.

MILITARY NEWS.

THE promotions consequent on the retirement of Col. Lawford from the command of the 4th Madras Light Cavalry go in the regiment, Lieut. Col. (Brevet Col.) Steward becoming Commandant from 2nd in Command, and the other officers moving up each a step in order.

SIR FREDERICK ROBERTS, in his order upon the annual musketry returns of the Madras Army, remarks as follows on the shooting of the Volunteers, whose figure of merit, 90·29, is only "moderate" :—

"His Excellency is well aware that the Volunteers are at a great disadvantage owing to their various employments, but is still under the impression that if individual members themselves would make an effort, and Commandants would try and arrange with employers to grant temporary leave to members so as to enable them to go through their annual course, the percentage of 30·55 non-exercised men might be materially reduced, and the efficiency of battalions greatly increased. Captain W. R. Pratt, Bangalore Volunteers, won the Presidency Medal, he having obtained 196 points in Individual Firing in his annual course."

The figure of merit of the British Infantry of the Madras Army was "very satisfactory," being 119·97 for 6,783 men exercised, against 114 for the previous year. The Native Infantry had a figure of merit of 5·86 per man over that of last year, but their average was still only "moderate."

The figure of merit of the British Infantry serving in the Bengal Presidency was 121·19 ; and that of the Bengal Native Infantry 91·79.

COURT-MARTIAL.—At a General Court-Martial assembled at Fort St. George, on the 7th September, Jamadar Mahomed Sameeullah, 33rd Regiment N.I., was arraigned on the following charges :—First charge : in having at Manapore, on or about the 11th February, given a bribe of Rs. 70 to Bulram, then a clerk in the office of the Adjutant-General, Madras, through the medium of Private Syed Ebrahim, 22nd Regiment N. I., then employed as an orderly in the same office, with the view of obtaining the assistance of the said Bulram in furtherance of his, Mahomed Sameeullah's, promotion from Havildar to Jamadar. Second charge, conduct unbecoming the position and character of an officer, in having at Mangalore, on or about the 11th May, when called upon by his Commanding Officer for explanation of a pecuniary transaction which it was then believed he had had with Private Syed Ebrahim, 22nd Regiment N.I., wilfully falsely stated that he had had no knowledge whatever of the transaction, which he then well knew to be false, and that he had, in fact on or about the 11th February, paid Rs. 70 to the said Private Syed Ebrahim in respect of that transaction. The Court found the prisoner guilty, and sentenced him to be dismissed the service. Lieutenant-General Frederick Roberts, Commander-in-Chief, Madras Army, made the following order on the proceedings :—I regret that I am unable to give effect to the Court's recommendation on the prisoner's behalf. His conduct, as disclosed by these proceedings, proves that he is undeserving of confidence, and therefore unfit to hold the responsible position of a commissioned officer. He failed to bring to the notice of his Commanding Officer, as was his duty, the malpractice of a clerk in the Adjutant-General's office, and, fearing lest he should lose his promotion through the artifice of the said clerk, he consented to pay, and did pay, the money demanded. The prisoner not only concealed the matter, which it was important should be brought to light, but did not hesitate to resort to falsehood to screen himself.

DRESS OF THE BOMBAY CAVALRY.

WE have received the following suggestions from a Cavalry Officer *apropos* of the new dress regulations for the Bombay Cavalry regiments :—

"Now that the orders have been published regarding the change of dress and equipment of the Bombay Cavalry, I would venture to offer the following few remarks and suggestions.

First.—It seems hard on the three old regiments to change the colour which they have worn and in which they have fought for the last sixty years, with which they seem always to be associated, and of which they were always so proud. As far as numbers are concerned, there are two representatives each of the french-grey and dark-green respectively. It therefore does seem hard on the old and senior regiments to have to give way to the others.

Second.—However, if the authorities, or the committee, have so decided that the colour of the uniform of all the Cavalry regiments is to be assimilated, and that that french-grey or light-blue is to be done away with, not being a suitable or desirable colour (though long experience speaks strongly in its favour), the question appears at once to arise, Why adopt dark-green ? One would think, if the change has to be made, that the most sensible and preferable one would be to have dark-blue, which has the following advantages over dark-green :—1st.—Much more easily procurable everywhere, either at home or in this country ; 2nd.—Wears much better. 3rd.—The colour could be gradually introduced into the regiments with dark-green without being very conspicuous, whereas it will be impossible to introduce the dark-green into the light-blue regiments gradually. 4th.—Regiments wearing light-blue could get any cloth or clothing in their possession dyed to the required colour almost in any bazaar.

Now, as it is not possible to introduce the dark-green into the light-blue regiments gradually, it of course follows that great loss as well as heavy expense will be entailed on the officers and men of these latter by having to throw away large quantities of light-blue clothing with which two out of the three regiments have only been recently newly refitted on return from service. With the above arguments in its favour, I think with regard to colour the subject is well worth the consideration of the authorities, and a modification of the order to dark-blue would undoubtedly confer a great benefit on all the silladars. Is it too late for the authorities to re-consider the question of the colour in the approaching change of uniform ? It is to be hoped some other Cavalry officers may come forward in support of the above suggestion, which undoubtedly has sound and sensible arguments to back it up."

TELEGRAPHIC WEATHER REPORTS.

SIMLA, Sept. 22.—Pressure continues to increase steadily throughout nearly the whole country. The distribution and the general direction of the winds have not undergone any important change since yesterday. The weather is hardly so fine, and rain is more general in the eastern and southern parts of the country, but in Punjab and the N.-W. Provinces the sky is cloudless, and in those provinces and Bombay the rains appear to be practically over, and the air to be becoming drier. The temperature exceeded 100° in the shade at Dera Ismail Khan, Jacobabad, Peshawur, and Agra yesterday. Rain to-day :—Akola, 3 inches ; Dhubri, Amraoti, Moulmein, 2 inches ; Akyab 1 inch ; Nagpore, Thayetmyo, and Tounghoo, ½ inch. Previously :—Sibsagar, 3 inches ; Raipur, 2 inches ; Jounpore, 1 inch ; and Seoni, ½ inch.

Sept. 23.—The general rise in the barometer noticed in the last two days' reports has been followed, by a slight fall throughout North-Western India while it continues in Bengal and Southern India ; but the changes are not great. The chief characteristic of the atmosphere in Northern India is prevalent calmness. In the Punjab and the N. W. Provinces, as far as reports show, the skies are clear. But little rain is reported in any quarter. Maximum temperature yesterday above 100° in Peshawur and Agra, and between 90° and 100° in the N. W. P., Behar and many parts of Bengal. Rain to-day :—Diamond Island, 2 inches. Akola and Rangoon, ½ inch.

DR. BLANC'S ATTACK ON THE GOCULDAS HOSPITAL STAFF.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—With reference to the observations made by Dr. Blanc at the meeting of the Town Council on the 19th instant anent the question of employing a paid medical man instead of the three Honorary Assistant Surgeon working at the Goculdas Tejpal Hospital, allow me to say my say in regard to this question. As one of the three Honorary Surgeons, I can speak on the subject with correct information ; and I hope to contradict some of Dr. Blanc's unfounded statements made at the Council.

It is really a matter to be regretted that the untimely and sad death of Dr. Cody deprives the Honorary Surgeons of one who could have borne ample testimony, and ably defended those who worked with him for a period of one year, and whom he has highly praised in his report to Government. It is difficult to imagine why Dr. Blanc should urge the necessity of employing a salaried officer, when the services rendered by the Honorary Surgeons have never been questioned in regard to any want of professional competence, attention, or zeal on their part in the due performance of the work entrusted to them. Let us now examine how Dr. Blanc has tried to mislead the Town Councillors, by quoting, from an issue of the *Lancet* of August last, part of a passage, the whole of which would have conveyed an entirely different view of the facts. The editor of the *Lancet* is not expected to be thoroughly conversant with the arrangements made at the G. T. Hospital and the objects with which the Honorary Surgeons were first nominated, unless some local interested party furnished him with an incorrect communication ; and this would seem to be the case, judging from the conclusion to which the Editor has come, deprecating the appointment of the Honorary Surgeons to the hospital. Let us see what it arises from. Men having "druggists' shops" and holding appointments in connection with a large hospital in the capacity of Honorary Surgeons are characterised by the Editor of the *Lancet* as throwing discredit upon the profession. But here obviously is a strange confusion of the terms. In this city, Graduates and Licentiates of the Grant Medical College, and Surgeons having obtained their degrees in England, keep their private dispensaries more for the comfort of their own patients than for any mercenary object, in conformity with the custom long prevalent in this country. Now, sir, you and your readers are aware that those who keep "druggists' shops" in England are by no means passed medical men holding diplomas ; and it is a great injustice, nay an insult, to the Honorary Surgeons to place them on the same footing as "dispensing druggists," and to describe them, as the misinformed *Lancet* has done, as men of defective medical education and acquirements, and of inferior social position. The quotation, therefore, stands self-condemned. Do not qualified medical practitioners in Great Britain have their dispensaries, called surgeries ? Are they, therefore, to be called 'dispensing druggists ?' In Bombay almost all old and new qualified medical men have their dispensaries, and if Dr. Blanc calls these men "dispensing druggists," is it not unbecoming in him to go in consultation with any one of them, and to belong to medical societies with them, to sit and discuss certain medical subjects from time to time ? Is not Dr. Blanc aware of the fact that even Assistant Surgeons attached to the J. J. Hospital have kept their dispensaries ? Then what is there to disqualify the Honorary Surgeons of the G. T. Hospital from holding their posts for that reason ?

I shall now allude to the second mis-statement of Dr. Blanc to the Town Council. The members of the Council were given to understand that to perform the work of one paid medical man, three Honorary Assistant Surgeons were appointed, and that if these three men were removed their work could be efficiently done by one paid man. So far as I know, from my experience of one year and a half, I am able to say, without fear of contradiction, that the case has been otherwise. The salaried man there used to have the charge of cholera and smallpox wards, each containing only six beds, and a general ward containing twelve beds only, and male out-door patients ; while the three Honorary Surgeons have given to their charge the same work, in addition to the increased number of special surgical wards, containing in all fifty-two beds out of the total and twenty beds in the hospital, and the female out-door patients as well. This arrangement relieved, to a certain extent, the heavy duties of the Surgeon in charge. If it were possible, why was not one paid man called upon to do all the work now entrusted to the three Honorary Surgeons ? In further consideration of the question regarding a paid man *vs.* Honorary Surgeons, is it not desirable to encourage the appointment of the latter, with a view to create a class of more experienced medical men by allowing them an opportunity of working without compensation as a large hospital, and letting them carry the knowledge gathered from treating a large variety of cases which they are not likely to come across elsewhere, into their private practice ? This is exemplified in the case of those native licentiates who have worked for a long time at the J. J. Hospital. When there is a kindred institution in this large city, I do not understand why the same advantage should be withheld, when voluntary, fully qualified workers are found ready to tender their services more for love of knowledge than any sordid gain.—Yours, &c.,

Sept. 24. H. D. PESIKAKA, L.R.C.P., &c., Hon. Asst. Surg. G. T. Hospital.

II.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—Allow me to correct a few inaccuracies in the speech Dr. Blanc made before the Town Council on the 15th September, when the Government Resolution regarding the Honorary Assistant Surgeons came under discussion.

1st.—Dr. Blanc, by quoting Mr. Ollivant's memo., seems to hint that Honorary Assistant Surgeons were consulted as to the arrangements of hours, the assignment of duties being according to their personal convenience. But all this is far from truth. We were never consulted about what he alleges ; we are as much under the command and control of the Surgeon in charge of the hospital as a paid man could be.

2nd.—The learned doctor, by giving an extract from the *Lancet* of August last, insinuates that the present Honorary Surgeoncies are not held by men of good standing in the profession, and that they are not willing to make sacrifice of time and labour for the benefit of those who resort to the hospital. Let me ask Dr. Blanc what is the definition of "men of good standing" in the profession, and to apply that definition to his own case when he first joined the service. We, the present Honorary Assistant Surgeons, are able and willing to make sacrifices of time and labour for the benefit of the patients of the hospital, which we have done often during our short connection with the hospital without blowing our own trumpet.

3rd.—Dr. Blanc, in his able speech, said that it would be a matter for regret if such appointments as Honorary Surgeons to institutions like the Goculdas Tejpal Hospital came to be held by men of deficient medical education and acquirements, and inferior social position. May I ask the worthy doctor if the gentleman whom he recommends the Town Council to appoint on a salary of Rs. 200 per mensem is likely to hold similar qualifications and a social position equal to the present Honorary Surgeons now doing duty at the hospital, more so as the learned doctor in his recommendation proposes to "rob Peter to pay Paul."

4th.—That we have never asked to be remunerated for our services, but have voluntarily and gratuitously offered them, and are willing to continue to do so as long as the Municipal Commissioner considers us worthy of the appointment.

HONORARY SURGEONS.

III.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—A more gross and unwarrantable attack on the Medical Staff of the Goculdas Tejpal Hospital than that made by Dr. Blanc at the last meeting of the Town Council has seldom, if ever, been witnessed in Bombay. The question before the Council was whether the Staff should be paid or unpaid. That question could surely be discussed without maligning the Honorary Assistant Surgeons and the House Surgeon. Dr. Blanc said the Honorary Surgeons should be dismissed, and the pay of the House Surgeon reduced. Is this censure deserved ? and what are the facts ?

1. The Honorary Assistant Surgeons have been favourably reported upon by Dr. Cody, after a daily experience of them for a period of a year.

2. They have asked for no remuneration.

3. They were specially selected by competent medical authority as highly qualified men.

4. They have gained experience in hospital work which must have increased their usefulness.

5. The House Surgeon is specially qualified, as testified by Dr. Cody.

6. His promotion to House Surgeon was approved and sanctioned by Government.

7. The salary of Rs. 300 per mensem which the Corporation granted to this officer was warmly supported by Dr. Cody, and has proved to be well deserved.

8. There is no more zealous hospital official in Bombay than the House Surgeon of the Goculdas Tejpal Hospital.

The Corporation can only recognize the gratuitous services of the Honorary Assistant Surgeons with thanks, and for the double reason that they have been cheerfully rendered and handsomely acknowledged by Dr. Cody. Is this a reason for their dismissal ? And is this the way to advance the interests of the medical profession in Bombay ?

The Corporation, moreover, will be glad to learn that the House Surgeon of their hospital has proved himself a faithful servant.

All over Bombay we hear the people giving expression to their preference of the Goculdas Tejpal Hospital, and their satisfaction with the working of the institution. What does this mean, if not that from the Surgeon in charge downwards the work of the hospital is satisfactorily and efficiently performed ? What would Dr. Blanc say if a similar attack was made on the hospital staff of his own institution, especially by some one prejudiced against the staff, and ignorant of its internal discipline ? Perhaps then we should hear about professional etiquette and professional honour !

OBSERVER.

PROFESSIONAL AMENITIES.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—In his speech on the Goculdas Tejpal Hospital at last Wednesday's meeting of the Town Council, Dr. Blanc is reported to have quoted from the *Lancet* as follows :—

"It is surely greatly to their advantage that the Surgeons of the hospitals to which they (the patients) are obliged to resort should be men of high qualifications, and who from their position would be able and willing, when necessary, to make sacrifices of time and labour for their benefit. In England such appointments are an object of ambition, and it would be a matter for regret if by any action either of Government or the Municipality of Bombay they come to be considered there as situations which might be adequately filled by men of defective medical education and acquirements, and of inferior social position."

As my son is one of the Honorary Assistant Surgeons referred to by Dr. Blanc, and is not here to defend himself, will you let me say, in regard to the sacrifices of time and labour for the benefit of the patients, upon which some stress is laid in the *Lancet*, that in giving up the morning to hospital work, and proving herself to do the work, the Honorary Assistant Surgeons are sacrificing time, labour, and money. This sacrifice may be in part for their own future professional benefit, but the patients have doubtless shared in that benefit, if the late Dr. Cody's report of the services of these officers may be accepted with confidence.

In regard to the implied "defective medical education" of the Honorary Assistant Surgeons, I have only to say that my son holds a Degree in Arts from one British University, and the Degree of Bachelor of Medicine from another British University. If the possession of these degrees indicates a "defective medical education," will Dr. Blanc kindly tell your readers what a complete medical education is ?

The last point I desire to notice in Dr. Blanc's quotation is the (again implied) "inferior social position" to which he refers. I confess my inability to understand what he means. It is the barest justice he should make his meaning plain.—Yours faithfully,

THOMAS BLANEY.

THE BOMBAY CATHOLIC DEBATING SOCIETY.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—Can any one afford me any information as to what has become of the abovenamed society, which used to hold its weekly meetings in the lecture hall of the St. Xavier's College some years back ? The programme of the subjects to be debated was a formidable one, if one may judge from the list given of them in the title-page of some of the pamphlets issued of the lectures delivered at the time, but if I mistake not, the debates never proceeded beyond even the preliminary subjects stated in the programme, and no one has yet heard of the oft-promised lecture of his Lordship the Bishop on "Creation." Cannot something be done by the patrons and those interested in the society, to resume the lectures in the St. Xavier's College Hall ?

THE NEW GUINEA ANNEXATION AND COLONIAL FEDERATION.

THE Australasian Convention, arising out of the movement for the annexation of New Guinea and the adjacent islands, is to be held in Melbourne, probably next month (September). All the Australasian colonies will, it is expected, be represented. Tasmania, which at first appeared to be uncertain, has now definitely decided to send delegates. The Assembly of that colony has unanimously adopted an address to the Queen, praying that steps may be taken to prevent the annexation of the Pacific islands by a foreign power. Formal invitations are about to be issued by Mr. Service to the various Governments, who will be asked to indicate the date most convenient to them for holding the convention. Copies of memoranda on the subject of annexation, submitted by the Premier to the Governor, and forwarded to the Imperial Government, have been laid before Parliament. In one, which is dated June 18, and was written soon after the deputation waited on him relative to the annexation of some of the groups of islands, Mr. Service pointed out that the desired annexation stood altogether apart from any general question as to an extension of the empire. As to the question of expense, he remarked that the course advocated might yet prove to be the truest economy. But he felt sure that Australia would not wish the mother country to bear the whole expense of the projected measure; and it would probably be deemed equitable that, if Australia shared the expense, she should be consulted as to the mode of governing. Australia was fettered in her action by her forming part of the British Empire, and was, therefore, entitled to request the Imperial authority to do that for her which her connexion with the empire prevented her from doing for herself. In conclusion, he represented that a strong feeling of dissatisfaction would doubtless spread throughout these colonies if England, while holding Australia back from acting in her own interests, at the same time neglected to take a step which Australia deemed essential to her future security and welfare.

In another despatch, dated July 27, and written on receipt of information that the Imperial Government declined to sanction the proceedings taken by Queensland for the annexation of New Guinea, Mr. Service stated that that decision was viewed with profound regret by his Government and the Governments and people generally of Australasia. On the policy of annexation or a protectorate, the Governments of Australasia were unanimous. In consequence of the declarations of various colonial Governments in favour of contributing towards expense, that portion of the question might be eliminated from the discussion. Indeed, he said, "I make bold to say that Australasia will provide for the expense." After pointing out the danger of some other power stepping in, he urged the objections entertained in Australia to the planting of convict establishments in these parts. What France had done in New Caledonia she might do elsewhere, and other countries might follow her example. As to the native races, the movers in the matter were missionaries, clergymen, and other philanthropic gentlemen. As to Great Britain avoiding responsibility by declining possession of these islands, the responsibility lay wholly in the other direction, for if the united voice of Australasia declared that the annexation was a measure essential to their safety and welfare, there was a great responsibility in disregarding that voice. There was really no ground for timidity in taking possession, as the islands were rich and fertile, and would be a source of wealth instead of a burden.—*Melbourne Argus.*

ADVICE TO MOTHERS :—Are you broken in your rest by a sick child suffering with the pain of cutting teeth? Go at once to a chemist and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor sufferer immediately. It is perfectly harmless and pleasant to the taste, it produces natural quiet sleep by relieving the child from pain, and the little cherub awakes "as bright as a button." It soothes the child, it softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for dysentery and diarrhœa, whether arising from teething or other causes. Mrs. Winslow's Soothing Syrup is sold by Medicine dealers everywhere at 1s. 1½d. per bottle. Wholesale by the Anglo-American Drug Company, Limited, 33, Farringdon Road, London.

EPPS'S COCOA.

BREAKFAST.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected cocoa, Mr. Epps has provided our breakfast tables with a delicately-flavoured beverage which may save us many heavy doctor's bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—See article in the *Civil Service Gazette.*

BY SPECIAL APPOINTMENT
COACH BUILDERS AND HARNESS MAKERS
TO H. R. H. THE PRINCE OF WALES.
201, MOUNT-ROAD, MADRAS.
ESTABLISHED 1840.

THE above firm have much pleasure in calling attention to their varied stock of Conveyances, finished and now in course of construction at their manufactory. Practical experience and close personal supervision enable them to turn out Carriages, which in design and finish contrast favorably with those of the first British and Continental builders. Simpson and Co. deem it almost unnecessary to state that they only use the best materials, and their carriages, being built with thoroughly seasoned country timber, have been proved, after lengthened trial, to withstand the trying effects of the Indian Climate infinitely better than those imported from Europe.

BROUGHAMS, of the latest design, single and double seated, circular glasses or folding up venetians in front, concealed door hinges, and the most recent improvements for one or pair of horses.

BAROUCHES, canoe-shaped or angular, for pair of horses. Miniature sizes, Canoe, Bismarck of Sociable; Simpson and Co. build these specially light, within the power of single horses in the Burmah ponies.

LANDAUS, canoe and angular designs, fitted with patent folding apparatus, by which a lady can open and close the carriage from inside.

BOMBAY & CALCUTTA.

CHRONOGRAPH WATCHES,
OF A NEW AND IMPROVED SYSTEM.

WE have just received a consignment of NEW RACE OR CHRONOGRAPH WATCHES which for durability, accuracy, precision, and convenience leave nothing to be desired.

The Chronograph hand is in front of the watch over the hour and minute hands. The cases are extra strong, with a solid cover on the back and a glass inside to protect the work.

The general objections to the Chronographs with second hand and glass on the back were that those glasses often broke, and each time necessitated a cleaning; that the glasses did not thoroughly protect the works from dust; and that to move the regulator it almost required the help of a watchmaker.

All these serious drawbacks of an otherwise good watch have been avoided in the construction of our new and improved Chronograph watches.

They are in stock—

In white metal cases .....Rs. 70

POCKET FILTER.

The Pocket Filter consists of a pure charcoal block, with flexible India-rubber tube attached. It may either be used to drink direct from a river, pond, &c., by the roadside, or it will filter into a glass on the syphon principle, after sucking the air out to start it. In the latter case it filters from four to twenty gallons per day, according to size. The India-rubber tube is the best that can be obtained, and is made specially to resist the action of a hot climate..... Rs. 4 0

LE FILTRE MOBILE.

The simplest, the most portable, and the most effective Filter yet invented. It is in the form of a bottle, the body being of stone. When placed in water IT FILLS ITSELF BY THE PROCESS OF FILTRATION INTO THE BOTTLE. It will be found invaluable at all times and places where pure water is either difficult or impossible to obtain, as a supply of it may at once be secured by placing the Filter in any tank or pond at hand.
